Jupiter will be benefic and favorable for you in this transit, but Saturn' Sade Sati is in operation for you and will adversely affect your Professional/Career and Financial aspects. You may find that opportunities to earn money are scarce and your money flow could be irregular. Your expense might go up and especially unplanned expenditure could create lot of mental stress for you. In this year avoid all sorts of risky and speculative transactions. Rahu and Ketu transits are also not favorable for you and you may find some stress at your work place.

You may encounter stress in family and domestic issues and the same could affect your work performance also. Jupiter which is transiting in your 10th house is going to be good for career though. As its transiting over 10th its aspects would be on 2nd, 4th and 6th houses which is going to be good for you.

But Saturn's Sade Sati has started operating in your chart , and it is in it's first phase and the same will affect your health and your spouses's health adversely. You need to be careful about what you eat and should resort to regular exercise.
